

BCBR Vanlife Guidelines

BCBR Basecamp is not a sanctioned community 'campsite' and will be more restricted than a sanctioned campground. Rules & guidelines for this type of special event or festival accommodation will conform to BCBR's community permits. It is subject to the following:

- The site is unserviced (no electricity, no water hook-up, no sani-outflow).
All site facilities & services will be the same as campers in basecamp tents.
- Gas generators are prohibited.
- No cooking or BBQs are allowed.
- Space will be allocated, and users may not exceed their allocated footprint (this includes any attachments to the vehicle including bikes, bike racks and awnings, etc.).
- Any use of a propane fire pit requires a fire extinguisher within 10ft. Wood fires are prohibited.
- A support person traveling as a van-life passenger may purchase meal plans Seating C.
- We ask that your support person that may be accompanying racers adopt a racers-first approach, and please use showers when racers are on course, and not during peak times.
- The same rules that apply to the basecamp will also apply to those in the Vanlife area. We ask that you be good neighbors to the rest of the basecamp and respectful guests within the communities that have so warmly welcomed us.
- **Failure to adhere to these rules may result in losing your Vanlife access and privileges.**
